All trainers running a horse on furosemide (Salix) at the Carolina Cup, that are not stabled in the race barns, must move their horses to the race barns by the prescribed time for Salix administration (4 hours prior to post time) and vet check. Those horses will remain stabled until paddock time for their race. All post- race testing will be done in two stalls of the four-stall barn between Barn B and the Block Barn. The designated stalls face the Block Barn. Please be advised that horsemen will need to make necessary arrangements for buckets and equipment to cool their horses out in this area if being tested. No horse will be allowed to go back to any outer barns: A, C, D, E until completion of testing.

Compaction: 90 (soft); readings ranged from 80 to 100 throughout the track.
Moisture: 5 (average); readings ranged from 4 (average dry) to 6 (average) throughout the track.
Notes: The course received 1-1/4 inches of rain over the last 24 hours. An additional 1/2 inch of rain is forecast for today. The grass cover is thin in places but smooth throughout.

The Springdale Race Course was inspected on Wednesday, March 22 by Jeff Teter and Toby Edwards.
Turf: The turf is a mixture of Bermuda Grass overseeded with Winter Rye. Though the Bermuda is dormant, there is a very good mat of Bermuda Thatch. The Rye Grass is spotty in some places and non-existent in others.
Smoothness: The course is smooth throughout.
Compaction: 90 (soft); readings ranged from 80 to 100 throughout the track.
Moisture: 5 (average); readings ranged from 4 (average dry) to 6 (average) throughout the track.
Notes: The course was aerated twice before overseeding with Rye grass this fall, then chain-harrowed and cambridge-rolled. Rye seed germinated well, but was subsequently burned out when we had three days of below freezing temperatures over Christmas. The course was sprayed for weed control in late February. Current forecast: Monday, March 27th: 1 - 1-1/2 inches of rain.
