Virginia Racing Commission Claiming Rules

In the event a horse dies during a claiming race, is euthanized on the racetrack during a claiming race, or suffers an injury that requires euthanasia of the horse performed on the racetrack or in an adjacent area as determined by the commission veterinarian, any claim on that horse will be declared void;

A claim is voidable at the sole discretion of the new owner or trainer for a period of one hour after the race is made official for any horse that is vanned off the racetrack after the race at the direction of the commission veterinarian;

If a horse is successfully claimed by a new owner, the trainer of record at the time of that claiming race must provide that horse's complete corticosteroid and intra-articular injection records for the last 60 days, which shall include the date of the injection, name of the veterinarian performing the injection, articular spaces or structures injected, medication or biologicals used to inject each articular space, and dose in milligrams of each corticosteroid used. Such records shall be completed by the treating veterinarian and be provided to the new trainer within 48 hours of the transfer of the horse. In addition, the owner of a horse shall order production and transfer of all health and medical records held by the individual or veterinarian providing services to the horse owned by them within seven days if the horse is sold, claimed, or transferred to a new owner, or if requested by the commission veterinarian.
