Below are the results of the testing that took place on the AFTERNOON of October 28, 2024.

We ran a turf loosening machine over the course all day. The machine is called an Agrivator. What was most notable is that these afternoon numbers were very consistent over the entire course. The range of test results was 110-130

The average COMPACTION IS 119.67

The average MOISTURE IS 6.58

We will continue to share all of our work and their results with the NSA in real time this week. We intend to be 100% transparent on all of our findings.
