Statement on Race Cancellation Due to Ground Conditions

After serious consideration, Michael and Anne Moran and the Pennsylvania Hunt Cup Committee have made the very difficult decision to cancel the 90th Running of the Pennsylvania Hunt Cup due to unsafe ground conditions. The lack of rain over the past two months has left the ground overly hard, posing an increased risk of serious injury to both horses and riders. While this was not an easy choice, we believe it is essential to prioritize the safety and well-being of everyone involved.

We thank the NSA, owners, trainers and riders, for their understanding and support.
