### Blue Ridge Course Report

The Blue Ridge course at Woodley was inspected on Sunday, March 30, 2025 around 2:00 p.m by Don Yovanovich. The course was mowed to race day height back in November and was chain harrowed recently. Rain is predicted for Monday, March 31, and extended showers are in the forecast for the end of this week. Still favoring it's winter brownish color, some rain and sun should brighten the course to a spring green in the next week or so. Course is smooth with good cover and has no other use other than for the races.

Moisture: 5 (Average)

Compaction: 114.5 (Good)

### My Lady's Manor Course Report

Date of Inspection: March 31, 2025

Date of Race Meeting: April 12, 2025

Turf: The average grass height is 4" to 6".

Smoothness: The course is run over fair hunt county.

Compaction: Jumps on the lower portion of the course had an average reading 40-60 (deep). Jumps on the top half of the course had an average reading of 80-100 (soft).

Moisture: Jumps on the lower portion of the course had an average reading of 8 (average wet). The jumps on the top half of the course had an average reading of 4 (average dry).

Notes: We are expecting rain between now and race day that will benefit the course. Jump #6 has been rebuilt. The course was limed and fertilized early March and aerated. The course will be drug, rolled and possibly mowed prior to race day if weather permits.
