Course Report 10/6/25
 Clerk of Course: Marion Thorne

Turf: The turf is thick and lush measuring between 6 and 8 inches. Two applications of fertilizer and one of weedkiller have really improved the grass as well as frequent mowing.

Smoothness: The course was cultipacked and aerovated after racing last fall and aerated in the spring. This has made the course much smoother.

Compaction: 120 (Good/Firm)
 Moisture: 2-4 (Dry)

Notes: The course was gone over with a cultipacker and aerovator last fall after the Races. In the summer fertilizer and weed killer were applied. The course was hayed and mowed over the summer. We will aerovate as needed before the races.

Fences: The two coops were removed and replaced with new rail fences consistent with the rest of the course. Drop down rails much stiffer and have new zip ties.
